

Profoto Pro-B4 1000 Air

A revolution on location

"The fastest, toughest battery generator on the market."

Recommended for & Typical Usage

- Fashion & People photography
- Sports photography
- Stop motion photography

7 Important Product advantages & User benefits

1. Extremely short flash durations

The Pro-B4 provides the shortest flash durations of any generator on the market.

2. Exceptionally fast recycling

The Pro-B4 is the fastest recycling battery generator on the market.

3. Outstanding reliability

Equipped with a solid-cast aluminium chassis and a sturdy rubber frame. Protective lids on all connections.

4. Powerful inside and outside the studio

The battery can fully recharge in only 45 minutes and can be recharged while in use.

5. Extraordinary power range and precision

Huge 11 f-stop power range with unrivalled stability in power output and color temperature.

6. Integrated Air radio sync and remote

Allows world-wide operation. Air is the fastest radio sync system in the world and has a range of 300m (1,000ft).

7. Wide assortment of Light Shaping Tools

Style your light to perfection with Profoto's assortment of Light Shaping Tools.

PRODUCT SHEET

Pro-B4 1000 Air

Features

- Extremely fast recycling times from 0.03 s to 0.99 s.
